

Our CSR ambitions

Our CSR roadmap

Our Focus

Impact on people

- Democracy and community governance
- At least legal minimum wage
- Diversity and equality of opportunity
- Co-ownership
- Active participation

Impact on environment

- Ecosystem restoration
- Biodiverse Food Forest establishment
- Biodiversity enhancement and protection
- Greenhouse gas emissions reduced and avoided
- Circular agricultural production systems built up

Impact on responsible value chains

- Community-based post harvesting
- Direct and ethical sourcing
- Corruption prevention
- Quality products meeting international standards
- Human rights respected, including no child labour

Our pillars

2025-2030

Focus on responsible growth & societal impact

- GHGs reduction from biodiverse Food Forests expanded
- Inclusive development achieved
- Sustainable procurement is standard for our products

2023-2025

Focus on product commercialisation

- Direct, transparent and ethical sourcing
- Scaling-up of biodiverse Food Forest landscapes accelerated
- Community-based profit-sharing mechanisms in place

2021-2022

Focus on sustainable product development

- Community-based post harvesting developed and implemented
- Food forest products matched with global standards
- Circularity of Food Forest systems increased

Up to 2021

Good governance & scalable project

- FPIC processes an integral part of activities
- Nature-based ecosystem restoration (ANR) standardised
- Performance-based farmer cooperatives established
